P 23

NORTH KOREA

Pyongyang KCNA (International Service in English, 0338 and 25X1 GMT)

He said that under the leadership of the Workers Party of Korea, the Korean people and youth have rapidly developed the productive forces and achieved the efflorescence and development of science and culture and that the well-being of the people has been promoted. 24 June 1971

He stated that the Soviet young men and women heartily rejoiced over all the victories won by the Korean youth in socialist construction. Saying that our sole aim is the building of socialism and communism and our common enemy is imperialism, the speaker declared: The young communist leaguers and youth of the Soviet Union are firmly standing on the side of the Korean people who are fighting valiantly for making the U.S. troops withdraw from South Korea and having their sacred right guaranteed to decide the destiny of their country by themselves without foreign interference.

Then the speaker quoted Comrade L.I. Brezhnev, general secretary of the Central Committee of the Communist Party of the Soviet Union, as stating in his report to the 24th Congress of the CPSU that the Soviet Union had supported and was supporting the proposal of the Government of the Democratic People's Republic of Korea for reunifying the country peacefully and on a democratic basis, and the demand of the Korean people for the withdrawal of the U.S. troops from South Korea.

The speaker introduced in detail how the youth in the Soviet Union were today taking an active part in the building of socialism and communism, and the role played by the Lenin Young Communist League in the social and political life of the country, and the tasks set before it.

He said that through the two world wars imposed upon mankind, the Lenin Young Communist League knows that the beastly nature of the imperialists and the brutality of the racialists and colonialists does not change. Stressing that the Lenin Young Communist League regarded it as its most important internationalist duty to render all-out assistance and support to the fighters against imperialism, U.S. imperialism in particular, while devoting all its efforts to the building of communism in the country, the speaker dealt with the activities of the League for the formation of an Anti-Imperialist Youth Front.

Noting that the friendship between the youths of the Soviet Union and Korea was deepening with each passing year, the speaker stressed: The Soviet youth believe that under the leadership of the Workers Party of Korea and its Central Committee headed by Comrade Kim Il-song, the courageous and industrious Korean youth will attain new successes in socialist construction and in reunifying the country.

The next speaker was Andrew Stapp, chairman of the Central Committee of the American Servicemen's Union. He said: I have come to have the great honor and glory to participate in the Sixth Congress of the League of Socialist Working Youth of Korea, which is being held under the personal guidance and care of the great leader Marshal Kim Il-song, genius of revolution, outstanding Marxist-Leninist and prominent hero whom the people of the whole world have been admiring so much.

"On behalf of the entire membership of the American Servicemen's Union, I'd like to avail myself of this opportunity to extend the greatest honor and thanks to the great leader of the 40 million Korean people, Comrade Kim Il-song, ever-victorious, iron-willed, brilliant commander and outstanding leader of the international communist and working-class movements, who has shown such a warm solicitude as to invite me to the congress and make it possible for me to stand on this high rostrum."

He said during his current visit to Korea he had visited Mangyongdae, where Marshal Kim Il-song, genius of revolution and prominent leader, was born and spent his childhood, and time-honoured Ponghwa-ri, a historical place of the revolution. I could see with deep emotions from my visits to factories, cooperative farms and educational and cultural establishments the brilliant achievements gained, thanks to the wise leadership of the great leader, he added. He continued: The brilliant successes achieved by the heroic people led by the great leader brought me to the fresh truth and helped me gain high ideals.

The great leader Marshal Kim Il-song taught as follows: "Particularly, it is very important to strengthen the work of the League of Socialist Working Youth. The LSWY, as a militant organisation of the youth who is heir to our revolution, is a reliable reserve and active assistant of our party. The future of the fatherland and the prospects of the revolution depend, after all, on how the youth is brought up. Consequently, to heighten the role of the LSWY is an important matter that concerns the future destinies of the country and the nation".

This teaching constitutes a great summing up of the past history traveled by the League of Socialist Working Youth, and a clear-cut prediction and truth discovered by him on the basis of correct analysis of the role played by youth in the revolutionary struggle.

We have known long ago that it was the heroic Korean youth who defeated U.S. imperialism for the first time in history. Then how on earth could the Korean youth become a heroic one who astonished the world's people with wonders? It is because of the fact that the Korean youth have as their father, teacher and leader, Marshal Kim Il-song, national hero, who embarked upon the road of revolution at the age of 14, roused the youth to struggle, organized the anti-Japanese guerrilla army and defeated Japanese imperialism by waging a sanguinary struggle for 15 years.

The great leader, Marshal Kim Il-song, organized the "Down With Imperialism Union" already in the Autumn of 1926 and led the Korean youth to the road of struggle. And he formed the "Saenal Juvenile Union" and Anti-Imperialist Youth League and at last organized the Korean Young Communist League in the summer of 1927, thus clearly indicating the direction of struggle to the young people.

As the Young Communist League under his leadership firmly united numerous masses around the leader, so the Democratic Youth League of Korea, founded with those brilliant traditions inherited from the earlier organisations, led the youth to the worthy struggle for building the democratic base and thus achieved brilliant successes.

The Korean People's Army which inherited the brilliant revolutionary traditions of the anti-Japanese guerrilla army organized by Marshal Kim Il-song on April 25, 1932, humbled the arrogance of the murderous U.S. generals who ignited the Korean War in 1950. The war-mongering U.S. generals raved that they would have breakfast in Haeju, lunch in Pyongyang and dinner in Sinuiju, a city on the River Amnok-kang.

D 25

NORTH KOREA

Nevertheless dealt heavy blows by the courageous soldiers of the Korean People's Army who fought heroically under the brilliant leadership of Marshal Kim Il-sung, ever-victorious, iron-willed, brilliant commander and military strategic genius, they couldn't even have a proper breakfast in Seoul, and they had their lunch in Taejon and their dinner in the prisoner of war camp. Such was the fate of General Dean, commanding officer of the 24th Division and other bestial generals.

The stamina of the Korean youth is still fresh in the memory of the young U.S. soldiers along with the knowledge that Dean's defeated division had been known as the so-called "Victorious Division." The young U.S. soldiers can now acquire the truth that they should fight the imperialist enemy like the Korean youth.

He said that is why he deemed it a great honour and it made him very proud to be there with the Korean youth and make a speech from the rostrum.

It would be hard to find any other young people who are as happy as you, the Korean youth who were born and are growing up in the warm bosom of the great leader Marshal Kim Il-sung and are spending proud days of struggle according to the teacher. You are participating in the congress with the honour of being a model of anti-imperialist struggle, an example of great change and being the heroic people who embodied the great chuche idea in reality. Once again I wish to express the highest respect and admiration for the great leader Marshal Kim Il-sung who has made it possible for you to occupy such an honorable place.

Referring to the miserable lives of the South Korean youth, the chairman of the Central Committee of the American Servicemen's Union continued: The South Korean youth and aged people whom you cannot possibly forget even for a moment are reduced to victims of the profiteering and money-making of the U.S. billionaires, and thus are dying every minute and every second in their forced life of tears and blood. The root cause of all the misfortunes and miseries in South Korea at present is the occupation of South Korea by the U.S. imperialist aggressors.

Marshal Kim Il-sung, the benevolent father of the 40 million Korean people, taught as follows: "The occupation of South Korea by U.S. imperialism and its colonial rule are the root cause of all miseries and sufferings of the South Korean people. Unless the U.S. imperialist aggressors are forced out of South Korea and their colonial rule smashed, the South Korean people cannot get rid of their present wretched plight".

As taught by Marshal Kim Il-sung, the great prophet and brilliant Marxist-Leninist, without driving out U.S. imperialism entrenched in South Korea, the South Korean people cannot be freed from the fate of humiliation and as long as this condition exists the youth here and the American Servicemen's Union cannot sit with folded arms even for a moment.

For this reason we actively support and give solidarity to the Korean youth in their struggle for chasing U.S. imperialism out and unifying the country. We, the American Servicemen's Union and revolutionary American youth, strongly declare that we support unconditionally the unification policy of the Democratic People's Republic of Korea for unifying the divided country without foreign interference, independently on democratic principles and will exert all possible efforts to support your struggle for its realization.

The heroic struggle of the Korean people under the wise leadership of the great leader of revolution, Comrade Kim Il-song--this is the model of the American Servicemen's Union members and in fact the model for the youth of the whole world.

Your struggle for driving the U.S. imperialist aggressors from South Korea encourages the struggle of the members of the American Servicemen's Union against the war policy and their vicious officers and it consolidates their confidence in victory.

Your daily achievements in socialist construction open up a brilliant future for the American Servicemen's Union members and for all the oppressed people and youth around the world. We feel no fatigue in the struggle and continue to march forward dynamically, with courage and strength, for we have the great leader of modern times, Marshal Kim Il-song, as our closest friend and instructor.

He said that the class struggle for breaking the chains of capital rages unabated within America, the den of U.S. imperialism and the struggle of the progressive people and conscientious soldiers against racialism and Wall Street's war policy is gaining momentum daily. U.S. imperialism, whose days are numbered, is going down the grade precipitately. Nevertheless, they resort to the most extreme measures to postpone the day of doom as was the case with Hitler, Mussolini and Tojo, the most vicious enemies of mankind, he remarked, and continued:

The U.S. imperialist murderers imprisoned Bobby Seale, chairman of the Black Panther Party; Angela Davis, a staunch communist; Joel Meyers, who refused to serve in the imperialist U.S. army; and many other comrades and have made them to undergo unbearable sufferings behind prison bars. The blood thirsty U.S. imperialist aggressors are committing the most brutal criminal acts by murdering numerous revolutionaries and innocent persons at random, not only in the U.S. but in all parts of the world.

Some time ago I visited the Sinchon Museum which has made a bitter mark in the hearts of the Korean people against the U.S. imperialist aggressors. Tears came to my eyes as I stood before the tomb of 400 mothers and 102 children, feeling soaring indignation against the U.S. imperialist bloodsuckers.

Pointing out that the U.S. imperialist aggressors are running amuck beyond human imagination to slaughter people in all parts of the world as well as in Korea, the speaker went on: As instructed by Marshal Kim Il-song, the outstanding leader of the international communist and working-class movements, the number one target of all the revolutionary people of the world is U.S. imperialism. In order to avenge the many oppressed people who have died a bloody death and in order to build a new society in America in which everyone enjoys happiness, as in Korea, I recognize the great chuche idea of Marshal Kim Il-song as the Marxism-Leninism of the present time.

Marshal Kim Il-song, the outstanding leader of the world revolution, taught as follows: "The peoples of all countries making revolution should tear limbs off the U.S. beast and behead it all over the world."

IV. 25 Jun 71

D 27

NORTH KOREA

"The U.S. imperialists appear to be strong, but when the peoples of many countries attack them from all sides and join in mutilating them in that way, they will become impotent and bite the dust in the end".

In order to give death to U.S. imperialism, the sworn enemy of the Korean people and the world's people, I totally support the strategy of the anti-imperialist, anti-U.S. struggle brilliantly clarified by the most steadfast anti-imperialist fighter, great leader Comrade Kim Il-song.

Saying that coming here to the Democratic People's Republic of Korea, the land of chuche, and having seen the convincing reality of the socialist accomplishments, he stated that he felt he had found many truths which a lot of our revolutionary comrades are anxiously looking for.

He continued: Seeing clearly now how the revolution should be made and how strong revolutionaries' will must be, I am filled with the conviction that brilliant successes await us in the just struggle of the American Servicemen's Union, and I feel a fresh fighting determination.

When I return to America I will share with my comrades the great chuche idea that they may be aroused to struggle more vigorously against the U.S. policy of aggression.

The American Servicemen's Union will study as documents, that must by all means be read, the works of genius of Marshal Kim Il-song, outstanding Marxist-Leninist of present times, books which contain the basic positions, attitudes, strategy and tactics that should be adopted by revolutionaries in any country or in any part of the world. With the chuche idea as the guiding compass of struggle, we will consolidate the branches of the American Servicemen's Union in order to rally more soldiers around the organization. In this way the American G.I.'s. will fight against their real enemies, against the policy of aggression and war enforced on them by the U.S. ruling circles and the fascist military officers. They will fight for freedom in all countries and in all parts of the world where the U.S. imperialists have set foot.

We are well aware that the struggle to awaken the G.I.'s being directly mobilized by the ruling class, the struggle to organize and lead them, and to build a powerful American Servicemen's Union that will turn the guns against their fascist officers. We are aware that this will be a fierce and arduous battle; however, so long as the great leader of revolution, Marshal Kim Il-song, brightly illuminates the road ahead, we have a powerful weapon of revolution in our hands and we are convinced that our just cause is sure to be victorious. Likewise, our struggle will know many victories both because of the justness of our demands and also from the great support we will receive from the hundreds of millions of people young and old around the world who love peace and justice. Just as the Korean people fought heroically and defeated U.S. imperialism, so we will fight without pause until imperialism is finally wiped off the globe.

The U.S. imperialists must be aware that if in the future they provoke another war in Korea they will be cut down not only from in front but from behind as well, and will get nothing but corpses and death.

That is, from the front they would meet a crushing defeat at the hands of the valiant Korean youth as they did in the incidents of the armed spy ship Pueblo and the large spy plane EC-121, while from behind they will be hit by class-conscious American soldiers.

If the American Servicemen's Union cuts the windpipe of U.S. imperialism inside the army while at the same time it is mutilated in all parts of the world, U.S. imperialism will surely perish forever.

The delegates here, Andrew Stapp declared, can be assured that we will fight and march forward, shoulder to shoulder with the heroic Korean youth until we bring about the eternal spring of socialism and communism under which the whole human race enjoys a truly happy and worthwhile life. He said: We will build a new society on the grave of imperialism which has brought such great misfortunes and sufferings to mankind for centuries. We will wipe out imperialism, headed by U.S. imperialism for good.

Finally, on behalf of the American Servicemen's Union, from the bottom of my heart I wish fresh successes to the League of Socialist Working Youth. The League of Socialist Working Youth has always played a vanguard role in the struggle to annihilate to the last the U.S. imperialist aggressors in South Korea and thus unify the country, building socialism and communism under the distinguished leadership of the great leader of the 40 million Korean people, Marshal Kim Il-song, ever-victorious, iron-willed, brilliant commander, strategic military genius and outstanding leader of the international communist and working class movements.

Widaehan suryong Kim Il-song Wonsunim mansel!

("Long live Marshal Kim Il-song, the great leader!" Mijerul tadohaja! ("Down with U.S. imperialism!")

Traian Stefanescu, head of the delegation of the Union of Communist Youth of Romania, made a speech.

Referring to the close relations of friendship between the youths and peoples of Romania and Korea, Traian Stefanescu said that the Youth of Socialist Romania know well of the successes made by the fraternal Korean youth and people in socialist construction under the leadership of the Workers Party of Korea headed by Comrade Kim Il-song, the respected and beloved leader of the Workers Party of Korea, the state and entire Korean nation, and rejoice over all the successes they have made by relying on their own efforts.

Saying that the Romanian youth and people admire the victory won by the Korean youth and people and Korean working class in the heroic struggle against the imperialist aggressors and for defending the gains of the revolution and the successes they are registering in the efforts for implementing the tremendous tasks put forth at the Fifth Congress of the Workers Party of Korea and its resolutions, the speaker stated: These successes are a precious contribution to winning the victory of the cause of socialism, strengthening world socialism as a whole and enhancing its position and influence in the world.

Korea of today is a prospering socialist state and the achievements of the Korean people constitute an inspiration and reliable support to the South Korean patriots opposed to the U.S. imperialists and their puppets.
